SUBJECT.

Improvement in Mysore city

W D 1250 -GPB—30,000 28-1-19

Note for the Dewan

The ~~Dewan~~ Resident of
City
the Mysore Presidency
proposes to acquire
the house of Vira=
bhadrappa in the
North western angle of
the Fort - It appears that
the Dewan decided that
the acquisition was
necessary -

The owner demanded
Rs 20.000, while the house
was valued at Rs 6400
or at 6 000. The Resident
offered Rs 0.000, but the
owner would not take it
The materials of the house
are worth about Rs 2.250.

The first question

Dewan's order

"The building is not
wanted, but the
municipality should
see that it does
not prove a source
of danger to the
public." IP

order
of Rs 8000

The offer made by
Resident is excessive,
& he is ~~not~~ requested
to withdraw it at once.
The only reason for acquiring
house is not great, &
need not be appealed
~~but~~ It is understood
that the house is in a
dilapidated condition,

to be settled as whether
the house should be
acquired under the Act?
The Dewan knows all
about it & his orders
are requested. —

~~If that is a source of danger to the Public.~~ The Municipality & Magistrate should see that ~~the~~ this ~~enquiry is not~~ ~~is found on a proper~~ condition so as ~~to prevent all danger~~ & does not prove a source of danger to the Public

MC
9/6/94

2. The cost were borne
& to be met from Provincial
~~Funds made for Special~~ allotment of
improvements. The
amount outstanding out
of that fund on 1st April 1894
was Rs 5943. Of this
Rs 1161 have been
due added to Govt
on the ground that the
deposit has been standing
for more than 3 years. —
Some houses already
acquired have to be sold
which are likely to yield
Rs 1600. The added
to the value of the

Rs 8629 to be acquired

moderate of the house, owned leaving Rs 8629 available for meeting the cost of the house to be now acquired. I do not know what further sums are required for special improvements. I note this for the information of the Darwan as some excess expenditure will have to be found from Pool Funds for such all improvements have been satisfactorily effected

9/6/94

Memo

The Chief Engineer has requested in his letter no 3144 dated 25th June 1896 sanction to the withdrawal of Mr Standish Lee from the Building Committee at Mysore, the Dy Com was directed to obtain from the said committee a final report of their operations as well as a complete account of their transactions and to submit the same to Government. (Vide Camp no 321 dated 27th June 1896) The Chief Engineer was also informed that the dissolution of the committee was under consideration and that orders of Govt would be obtained as soon as the final report with accounts was received from the Dy Com

(2) Accordingly the Dy Com submitted a report with his no 938 dated 23rd October 1896 As the reference

General No 160

Municipal Board's

Dated Mysore 16th February 1886

To

The Revenue Secretary to the

Chief Commissioner of Mysore

Sir

As verbally directed by the Chief Commissioner on the occasion of his last visit to Mysore, I have the honor to forward the accompanying Compensation list of dry lands, situated within the marginally noted boundaries proposed by Mr Gordon to be reserved for Government, the compensation for the same amounts to Rupees 746-8-2 at the rate of ten Years assessment.

These owners however refuse to part with the land for the amount shown in Column 10 stating that the Town's people offer amounts shown in Column 11 the 5th

On the South by the Municipal Road
On the East by Lessan Rao Sahib's
South West by Municipal
Gardens
Reserving 71 — 3360

I would also note that the rate of compensation paid for the portion of the land purchased & made over by Govt. for the Con=struction of the Kyanganur Hospital was Rupees 7211-7 per Coodo & that the close vicinity of these lands to Mysore enhances their value.

I have the honor to be

Sl 2

Sir

In continuation of this office
letter No 160 of the 16th. Instno,
I have the honor to inform you
that the land holders above the
Jewan Rose Tank, insisted upon
the payment of the amount viz
Rs 13,350 offered by the Town people
for their lands, but I have tried
my best endeavours & made
arrangements to buy up their
fields at Rs 60 per Coody, which
I Consider fair & reasonable, as
the Compensation according to this
rate amounts to Rupees 6772-8-0
which is less than the amount
Calculated upon the rate viz Rupees

Rupees 72-11-7½ paid to the land purchased for the Construction of the Lying in Hospital, by Rs. 1477-3-5.

I also beg to inform you that the land No. 17 shewn in the statement forwarded with the letter above quoted is only one Coodo in measurement, & the owner of it appears to have purchased it for Rs. 300 and therefore, he would not agree to dispose of the land for a lesser price than he paid for it in anticipation of the value of lands being increased in future.

As the ploughing season is approaching fast, I request your early instructions as to the lands being at once taken by the Municipality or by Government, or the land owners be permitted to cultivate their lands as usual.

I have the honor to be

GOVERNMENT OF MYSORE

GENERAL.

PROCEEDINGS.

Dated 26th May 1884.

No. 1348-50

Scheme for the better sanitation and drainage of the Fort of Mysore.

Mysore Government Press, Bangalore.—30-5-84.—80

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 26th May 1884.

READ—

Letter No. 104 of the 17th May 1884, from the Deputy Commissioner and Municipal President, Mysore, forwarding for orders a scheme for the better sanitation and drainage of the Fort of Mysore.

No. 1348-50—75, DATED 26TH MAY 1884.

ORDER THEREON.—In the above papers are recorded the views of the Municipal Commissioners on the following subjects :—

1*st*. The sewerage of the Palace and Fort.

2*nd*. The opening out of a straight approach to the north gate.

3*rd*. The opening out of a straight approach to the south gate.

4*th*. The removal of all small houses and hovels situated both to the north and south of the Palace, and of all houses, other than really good ones, within a radius of 150 feet of the Palace, the space thus cleared being laid out as gardens.

5*th*. The Palace to be supplied with good water from the Kukarhalli tank.

2. In considering the first of these subjects, *viz*., the sewerage of the Fort and Palace, the Dewan observes that the committee have decided on adopting open V shaped drains in streets, while they recommend the more scientific and modern contrivances of glazed stoneware pipes, traps, syphons &c., for the house, the secondary, the main, and the outfall sewers. The reason for this departure from recognized principles of sewerage is not apparent from the reports, nor is it shown how the two systems, *i. e*., of open drains and sewer pipes are to be combined, since the committee have accepted the leading feature of the proposed works to be,—the separation of soiled house water from storm water. The V shaped drains are efficient for the purpose of surface drainage, but they are held to be very inappropriate for sewerage. The Board will therefore be requested to re-consider the matter and to submit revised proposals with due regard to the necessity of keeping storm water in the open side drains separate from sewerage.

3. The second and third items of improvement will be considered when the Dewan next visits Mysore.

4. The improvement of the immediate vicinity of the Palace and the removal of huts and hovels in the neighbourhood as proposed are approved as far as they go. This question has to be considered also in its relation to the drainage of the Fort. There is no plan of the Fort now before the Dewan, and he is therefore not able clearly to indicate what is required in this direction. A map showing the drainage of the Fort was prepared by the Executive Engineer, Mysore, in or about 1877—78, and the Executive Engineer will be requested to submit a copy thereof. In the meantime, the Dewan is of opinion that the clearings required within the Fort are as follows in the order of their importance :—

(1). The small houses occupied by Gollars, washermen, tailors and others, on the north of the Palace, between the wall of the Palace Salgere and the north-west rampart of the Fort.

(2). The houses on the south-west of Karikal Totti, as was pointed out to the Palace Assistant Commissioner last year.

(3). The small detached houses in the vicinity of Tankasale, required to complete the scheme for having open laid out grounds in that locality.

(4). The bigger houses on the north of the Palace Salgere wall. Most of the houses of value in that locality belonging to Dinchandraiya and others are too near the Palace wall to be retained. Another large house (Bakshi Bhadraiya's) is also in an objectionable position, being too near the rampart wall. These houses have all to be removed eventually. The only other large house between the Palace wall and the Fort north-west rampart is Venkatappaji's. This may for the present remain untouched, as other arrangements can hereafter be made by the Palace in regard to it.

5. The President will be requested to frame estimates of the cost of buying the houses above referred to. In the case of the smaller houses, huts, &c., it may perhaps be desirable to build for the owners a street of houses in some convenient locality such as the vacant space on the west of the north entrance into the Town. This may be somewhat costly, but with due precautions for economy, such an arrangement need not cost much more than the buying up of the houses. It certainly has the advantage of preventing all inconvenience to the poorer house owners. The owners of the larger houses must be paid the price of their houses. It is of the first importance that before the houses are removed a suitable site should be selected and the owners required to build new houses therein, if they at all wish to build. Another precaution very much required is to prohibit absolutely the building of *new* houses within the Fort.

6. With such clearings the Fort drainage scheme will be greatly simplified.

7. It is notorious that the quality of the Karanji tank water has greatly deteriorated since the *drainage* of the town was led into it some years ago. From the main drain of the town passing through the Deputy Commissioner's Office compound a branch on a somewhat higher level is led off as one of the feeders of the Karanji tank. This appears to be a very undesirable arrangement, and the Board will be requested to give their very early attention to it. A well below the Karanji tank, now used by Europeans and Eurasians, contains pure water. A similar well in the same locality should be constructed and reserved for the use of caste people only. The wells in the neighbourhood give a never failing supply of good water and must therefore be a great boon to the people throughout the year especially during the dry weather. The proposal to supply the Palace with Kukarhalli water is approved. An estimate of cost should be submitted in due course.

8. Pending the submission of the information herein called for, Mr. Lee will at once set about preparing the scheme for thoroughly sewering and draining the Palace. The suggestions made in Para 17, Sections *a, b, f, g, h, i, k, l, n,* and *o* of Mr. Lee's report and approved of by the committee, may be carried out, after the proceedings of the select committee have been confirmed by the Commissioners.

9. The funds required for the removal of houses within the Fort, for the systems of drainage and water supply, will be granted out of Provincial revenue, when comprehensive schemes for carrying out the respective works are carefully matured by the Board and finally approved and sanctioned by Government. Large immediate grants may not be possible, but if the entire schemes are approved once for all, such money as Government can spare annually should be spent towards them and not, as in the past, in spasmodic efforts at remedying defects which casually attract attention.

R. VIJAYINDRA RAO,
Secretary.

To—The Deputy Commissioner and Municipal President, Mysore.
The Comptroller.
Copy to Mr. Lee, Sanitary Engineer.

MYSORE MUNICIPALITY.

MEMORANDUM, CAMP NOS. 35 AND 36, DATED 29TH OCTOBER 1884.

1. The want of suitable building sites is greatly felt in the Town of Mysore The chief cause of the defective sanitation of the town is due to overcrowding. This especially is the case within the fort. Recently some efforts have been made to remove houses both in the fort and elsewhere with a view to improved ventilation and easier sewerage. The Municipality give compensation to the owners of the houses removed, but so long as the Board are unable to provide other and more eligible sites, the owners are put to very great inconvenience and the evil of overcrowding is only shifted from one locality to another.

It thus becomes necessary to select a suitable block of land where all who desire to build new houses may be given sites at fixed prices.

2. The most convenient direction in which the town can extend is towards the west. Some fields to the west and north of the Female Hospital were purchased by Government some time ago, partly with the view of providing suitable building sites. It is found that these fields are unsuitable for building purposes, owing to the absence of water at reasonable depth from the surface.

3. I have, after careful consideration, selected some fields to the south and south-west of the Female Hospital as suitable for building purposes. Water can, it is believed, be had in wells in this locality, and in any case we have in the channel from the new Kukarhalli tank a ready means of water supply.

4. Under such circumstances, I desire the Deputy Commissioner to carry out the following arrangements with the aid of the Executive Engineer and the Municipal Board. The Sanitary Engineer may be employed upon this work under the direction of the Board.

1*stly*. The Rama Vilás Agrahar street should be produced in a straight line towards the west so as to join, by a short curve, the road below the bund of the Kukarhalli tank. An alignment of this new street (marked on the ground by white flags by Mr Lee) seems to be suitable as carrying the new street on fairly high ground. This alignment is not in an exact straight line with the present street, but this can be remedied by setting some of the present houses more to the north, and by slightly altering the line of the present street by taking some of the waste land on the north. The Municipal Officers and the Executive Engineer are requested to make the most suitable alignment and immediately to commence the work of making the road. I have marked the road in red pencil on the accompanying trace of the Topographical map. (See B. D. C.)

2*ndly*. The road passes in one place through a hollow, but it can be made fairly level by constructing a tunnel of 3 or 5 vents which will greatly reduce the cost of the required embankment.

3*rdly*. This new road should be a broad one with a margin on either side for avenue trees. Behind the avenue on either side will be the houses.

4*thly*. The houses should be built with frontages approved by the Municipality, and stones should be permanently fixed showing the line beyond which no house shall be allowed to project on any pretence whatever.

5*thly*. Settling reservoirs for the Kukarhalli water should be built in or about the place marked A in the accompanying tracing, and from such reservoirs the new street and the fort should first be supplied by iron pipes or otherwise, as may be found most convenient. The Executive Engineer and Sanitary Engineer are requested to study this question and to report upon it as soon as possible.

6*thly.* A new road from the Railway Station should be made so as to join the new street (B. D. C). It is roughly marked in the accompanying tracing with a red pencil. (See D. E.). It passes through the edge of the bed of the Jivanrayankatte and on the west of the Female Hospital compound. The Executive Engineer is requested to trace this road making it as straight as possible, and to take early steps for its construction.

7*thly.* New streets should also be opened as marked with a red pencil (F. G. and H. K.) in the accompanying tracing.

8*thly.* There are some sweepers' huts behind the Female Hospital. Orders were issued some time ago for the removal of these huts. These orders should at once be carried out, and a new street for the sweepers should be properly laid out beyond the Subbarayankatte as already arranged.

9*thly.* The Pindari huts beyond the Female Hospital and to the north-west of the Jagan Mohan make the locality very unclean, a result which is specially objectionable owing to its proximity to the Female Hospital. These huts are however too numerous to be removed, and therefore without resorting to their actual removal all that is possible to improve the sanitation of the locality should at once be done. No new huts should on any account be allowed to be built in this locality and the Municipality should be specially watchful in this matter; as many of the old huts as possible should be bought up as opportunities occur; regular streets should at once be opened through the present huts which are so crowded together as to make the whole place very ill ventilated. A new street (near where the new sweepers' street will be) should at once be marked out for such Pindaris as may wish to build new huts. A clear plan of the present Pindari huts and of the streets passing through them should be made and each Pindari hut should be marked upon it by a distinct number. Such a plan will be very useful for preventing new Pindari huts springing up in this locality.

10*thly.* For the purpose of making the new roads (B. D. C. and D. E) the requisite lands should at once be acquired by paying their full market value. Crops which have to be removed or which may be injured should be fully *paid for*, so as to prevent any hardship to the ryots. Compensation for crops is not likely to cost much and it is cheaper to make these roads now when the ground is soft than to wait till the crops are harvested and the ground gets hard. The cost of making these roads (which should be of the first class) should be borne by the Municipal and Local Funds, as they will be of great use both to the town and the surrounding country. The exact proportion to be contributed by each fund will be fixed hereafter. In the meantime, the necessary advance will be given from the Treasury on the Deputy Commissioner's application.

11*thly.* In the accompanying sketch the hedges of the fields through which the proposed roads will pass are marked. The fields marked (1), (2), (3), (4), (5), (6), (7), (8), (9) and (10) should be acquired by the Municipality by paying their full market value.

The Revenue authorities should arrange for this at once, the owners being, where possible, allowed to remove hereafter the crops, if any, on the fields.

The acquisition of fields (11), (12), (13), (14) and (15) is not immediately required; but they may be required hereafter and their prices should therefore be ascertained and recorded. The price required to be paid for the fields Nos. (1) to (10) will be advanced to the Municipality from the Treasury and it should be repaid out of the sale proceeds of building sites.

12*thly.* After all lands required for the roads and building sites above referred to have been acquired by the Municipality, application should be made in due course for their exclusion from the land revenue accounts.

13*thly.* A statement showing the cost of lands acquired, compensation for crops removed or injured, and the cost of making the new streets and roads above referred to should be submitted as early as possible.

14*thly.* The centre line of the proposed Nanjangud Railway should be marked on the ground by stones planted at suitable intervals and the required space on either side of this line should be reserved.

15*thly.* I trust that the Executive Engineer and the Executive officers and members of the Municipal Board will co-operate with each other and carry out these improvements as early as possible, keeping me informed from time to time as to the progress they may be able to make, and seeking my instructions on all points on which the above orders may not be clear or may in their opinion require alteration.

K. SHESHADRI IYER,
Dewan.

Copy to the Deputy Commissioner of Mysore,
and President, Mysore Municipal Board,
and Executive Engineer, Mysore Division,
for information and guidance.
Copy to Mr. S. Lee for information.

Municipal Board's Office Mysore

Dated 17th November 1885

To

The Secretary to the Dewan of
Mysore.

Sir

I have the honor to submit herewith, an abstract statement of expenditure incurred by the Municipality, up to date, for the Fort improvements, and for the removal of houses of Pindaries, Potters and others, about the Jaganmohan Bungalow.

We have received an advance of Rs. 27000—"—"— as particularized in the margin, and the Revenue authorities, have I believe, submitted their accounts, direct, for the advance of 5000 and odd Rupees, made to them for the purchase of lands to extend the Town to the west.

do do order Nos. 5707 & 6622 dated 20th January & 4th March/85 respectively } 12000
Total Rs 27000

The result of expenditure and income in Connection with the works, is as follows.

	Amount spent by the municipality	Advance by Government	By sale of materials and other sources	Total	Balance due to municipality	Outstanding	As debts to be recovered: Estimated value of property to be sold	Total probable assets	Net balance due to municipality
t improvements	21159 9 10	15000 " "	1986 10 5	16986 10 5	4172 15 5	2001 " "	3 17818 "	378283	390 7 2

Vice President & Commissioner

Memorandum

From 1st ~~July next~~ Instt, (1) the Western Extension of the City of Mysore, (2) the Gordon Park, (3) ~~Improvements~~ Bathing tanks below the Kukkarhally Reservoir, (4) ~~Improvements~~ ~~of Roads and Roads~~ (4) Improvements in the Fort of Mysore & (5) the drainage scheme ~~of~~ the Fort of Mysore will be treated as separate works and will be managed as follows :-

No 1. Western Extension - To the debit of this work should be entered (1) the cost of land purchased in 1880, 1881 and 1886; (2) the cost of the removal of houses behind the temple

Hospital and the levelling of the same, (2) the cost of roads and streets, whether made through the D.P.W. or the Civil Deptt. — To it, credit should be entered receipts from sale of building sites & from temporary cultivation, or grazing of the lands. The whole should be under the charge of the Town Magistrate in Mysore, who should maintain a careful account as above set forth as well as a map showing the proposed streets and lanes, & dimensions of building sites allotted from time to time. He should maintain also permanent stone boundary marks showing the alignments of streets and lanes, and

the limit beyond which houses should not extend. As almost the whole of the land required for the Western Extension has been purchased, very little addi-tional expenditure on this work is required – It must also be noted that careful attention should be paid at once to the drainage of the tracts intended to be built upon. The decision on this question should also be distinctly shewn on the map, with restrictions, if any, as to building in connection with it –

No 2 Gordon Park.

This work should be under the charge of Mr Lee and should be done with convict labor only, Plants required being supplied from the Dacca Dowlat, the Lall Bagh or the Forest Depôt

No 3. Bathing Tanks. This work will also be under Mr. Lee's charge, and what remains should be done by convict labor, except as regards the conservancy of the Musafirkhana (old Distillery Buildings) and the grounds adjacent to it which have been taken charge of by the Municip

It is reported that ~~xxxxx~~
~~xxxxxxxxxxxxxxxxxxxx~~
a small portion of the remaining
work in these tanks is such
as ought not to be done
by convict labor — W. Lee
will submit at once an
estimate of such work and
take early steps, upon
sanction of such estimate,
for the ~~xx~~ speedy execution
of it — Work connected
with the Kodi Channel being
debitable to the D.P.W., should
not be charged to the Bathing
Tanks account, but should
be done by convict labor as far
as possible —

No 4. Improvements in the Fort —

These improvements were
pointed out by me and
Major Bowen to the Dy Com^rs,
Town Magistrate and Sanitary
Engineer — ~~It should~~ It should
be under the immediate
charge of the Dy Com^rs aided and the Town Magistrate
of course by the Sanitary Engineer.
~~xxxxxxxxxxxxxxxx~~ — I should,
like

like to see any valuation which may exist of houses to be removed, before according final sanction to this work. In submitting such valuation list, the Dy Commr should also submit an extract from the Topo: (or other) Map shewing distinctly the houses to be removed.

xxxxx scheme of the Dock—

~~will be in the Exclusive charge of the D.C.W., and I have~~ asked Major Bourne to set it afoot immediately, leaving the drainage of the West of the town to be dealt with separately hereafter.

The above distribution of work is made to ensure expedition and separate responsibility, & but in the full hope that all Officers concerned will co-operate with one another and help each other with advice & suggestions.

The Municipal Board should also be invited to take an interest in these improvements from time to time and to offer such suggestions as they may deem proper for the purpose of securing the fullest possible benefit to the public -

Mr. Lee will also be requested to correct the Topo. map of the City of Mysore in accordance with present arrangements & send such corrected copy to the Secretary D.P.W. in order that it may be incorporated in the map to be published

A permanent gang
of 200 Convicts has been
ordered to be stationed
in Mysore for work
connected with the
improvements of the City.
They should be employed
for the present, one half on ~~Darbung~~
Lyndon Park, Bathing
tanks and Kukkarhalli
Kodi Channal and the
other half on filling
the ditch between the
Kanpalkarlu Memorial
Hall and the Fort

GOVERNMENT OF MYSORE

GENERAL.

PROCEEDINGS.

Dated 18th July 1886.

No 3170-3
D P. W. 30.

Allotting Rs. 30,000 for removing the houses in the north-western angle of the Mysore Fort.

Mysore Government Press, Bangalore.—23-7-86.—80.

dangerous. The pollution of the air about some of these streets was this morning to me almost unbearable, and I cannot advocate too strongly the immediate removal of so serious a nuisance.

To-morrow morning I shall determine with Dr. Benson and Mr. Lee on what work the convicts should first be employed.

No. 3190-3—D. P. W. 33, DATED BANGALORE, 18TH JULY 1886

ORDER THEREON.—For the purpose of removing the houses in the north-western angle of the Mysore Fort referred to in the foregoing note, a sum of Rs. 30,000 is sanctioned. The Comptroller will place this amount at the disposal of the Deputy Commissioner of Mysore who will proceed immediately to acquire the smaller houses in the locality in question in accordance with instructions contained in Dewan's Memo dated 9th July 1886.

2. The Deputy Commissioner will be requested to expedite the submission of the maps and valuation list called for in the above Memo both for the houses, the moval of which is now ordered, and for houses in the south-western angle of the Fort.

3. Before the owners are required to vacate the houses proposed to be removed, suitable building sites should be allotted to them in the "Western Extension". sketch map showing the streets set apart for this purpose should be previously submitted for sanction.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Secretary, Public Works Department.
The Deputy Commissioner, Mysore, for information, guidance and communication to the Town Magistrate.
The Comptroller.
The Sanitary Engineer

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 18th July 1886.

Memorandum, dated 12th July 1886, by Major C. Bowen.

I inspected this morning, in company with Dr. Benson, Mr. Abdul, Khader, Mr. S. Lee, and several members of the Municipality, the blocks of buildings in the Fort which it is proposed to remove. Mr. Bayly was unfortunately not able to attend from illness.

It was decided that the whole of the block in the north-western angle of the Fort should be cleared away bodily *with the exception* of a line of good double storied houses, 5 or 6 in all, which lie close to the back wall of the Palace Barracks. These houses appeared to me of a superior class, the compensation for them would certainly be heavy, and after the removal of the agglomeration of wretched dwellings lying to the north and the proper repair or renovation of some of their backyards and walls, which the Deputy Commissioner informed me would be insisted on, all essential requirements on this side will be met.

The estimate for compensation for the block above referred to amounts to Rs. 29,000, but I was assured on all sides that when it comes to buying out the occupants very much more will be required. We questioned some of the owners as to what they would consent to sell for, and they invariably pitched their demands at about double the sums estimated. I must add also that on going over several of the houses personally, I was impressed with the idea that the estimate was in some instances much too low.

There will certainly be difficulty in dealing with the inhabitants who must be talked over if possible, but who will of course hold out for high prices; and if summary measures be resorted to, law suits will follow, and I was given to understand that in previous similar cases when the law was appealed to, compensation was awarded 50 per cent higher than the compensation offered by the Municipality.

I think then I may safely say that not less than Rs. 40,000 will be required for the houses to be cleared away in this locality and I would urge that the President be authorized to proceed with the necessary negotiations up to this limit. Action should be taken *at once*, for delay in my opinion intensify opposition on the part of the people and lead to higher demands.

This sum may appear a large one; but after personal inspection of all the lanes and alleys of this locality, I cannot urge too strongly the necessity of clearing away what must be a nest of disease lying under the very walls of the Palace.

The above locality disposed of, we proceeded to inspect the blocks of houses lying in the south-western angle of the Fort, and decided to sweep away all the small houses lying to the south of the Palace and west of Palace Road, leaving the few larger ones standing. These it is unnecessary and expensive to remove. A few isolated houses of this class cannot be objectionable, and the clearing away of all the others will open out the place sufficiently.

I cannot say what will be required to meet this, as no estimate nor detailed list for this part of the Fort has been prepared as yet. The cost ought to be very much less than the compensation for the north-western portion, but it is as yet impossible to say. An estimate should be made at once, and the Municipality might be authorized to open at once negotiation with the proprietors.

These clearances will effect an immense improvement in the surroundings of the Palace, and will have a marked effect on the sanitation of the place. No time should be lost in effecting them, for the poisonous effluvia from the slums I visited might I believe at any moment breed a disastrous epidemic. The outlay will be in the direct interests of the Royal family and on this score, however heavy it may be considered, I think the necessary formal grant should be made at once. Delay is

ABSTRACT.

Complaining of the impurities of the Kukkarahully Tank water supplied to the Mysore Town

A - Chemical Mic Engineer

Bangalore

Dear Sir

A few days ago I addressed a letter to the President of the Municipal Board bringing to notice that the clear, percolated water under the Ulsoor Lake may be pumped up for the use of the town here. The suspended impurities in the water pass above into the clear water. This was done for 2 or 3 days after which the muddy water of the Tank again used to be let into the pipe. Even now it is the muddy water that is supplied. I beg to submit that the raw water in its course to the tank carries a great deal of vegetable and animal matter. This begins to decay and the dissolved matter and the mud remains suspended for one or two months before the end of which these impurities subside a little. It is then that the water becomes fit for drinking purposes. The matter of experience in the town that whenever there is a fresh supply of water the health of the town improves so many as nearly 25 p C of the common people and many of the higher classes of people too suffer from the complaints of the bowels viral, and it is not unfrequent that in some cases. complaints prove fatal. The cost of pumping the percolated water according to the present rates is Rs 5 a day and this may amount to 1825 or the water is pumped up till the tank water be clear. The desire to economise has been a part of the municipal authorities and so much of this is due to the poor rate payers. The main charges cost of water &c

From

The Acting Chemical Examiner
Mysore

To The Sanitary Engineer
Spl Imptr. Division

Dated 2d December 1891
Despatched 3d.

Genl. No. C 86.

Has the honor to acknowledge the
1 of 12 bottles containing water of
Kukerhalli and Bathing Ghauts at Mysore
and in reply to his docket No. 2155/1355 dated
Mysore 30th November 1891, which accompanies
the above appends for information the
following analytical results:

1. Kukerhalli Tank water. This water
is of a pale strand color, smell somewhat
earthy taste slightly saline, of neutral
reaction contains a trace of organic
matter and chlorides, but devoid of
ammonia sulphates, and magnesium. The
permanent and removable hardness is
considerably below than usually found

found on most good drinking waters.

I am from the foregoing examination of opinion that it is with filteration, specially adapted for potable as well as any other domestic purposes.

2. Bathing Ghaut Water. This water is quite transparent slightly saline in taste and earthy smell neutral reaction, only a trace of organic matter present no ammonia chlorides are with difficulty detected, no sulphates. The hardness permanent and removable, somewhat in excess of the Kukerhalli Tank Water.

Opinion. A good potable water if source is kept free of any washing or bathing, but it is advisable that this water be also filtered previous to distribution if intended for drinking purposes

Sir,

I have the honour to report that as resolved by the Viceregal Reception Committee in Para III of the Proceedings dated 29th Octob 1892 (copy of which is herewith enclosed for ready reference the repairing and widening of the Chettanhully road in the Town have been taken in hand

2 The Gowligere of the Ch is very narrow, portions being not more than 17ft in width

3. It is chiefly under the

by the Gowlies who have one or more buffaloes in their houses and have been using their front part as sheds for these cattle It was highly desirable on Sanitary as well as on other grounds that this portion of the road should be widened and made ready before the Viceroy proceeded on it.

4 The residents have readily Consented to the widening of the road and some have given up portion of their houses for that purpose

I submit a compensation statement amounting to Rupees 2334--- to be paid to the owners of houses and solicit that you will kindly obtain the sanction of the Government for the amount as a special grant for the purpose on this occasion. –

I have the honor to be
Sir
Your most Obedient Servant

My Dear Sir,

Yours of the 5th inst to hand. I could have not only put up the Compound wall and would have almost Completed my building by this; and the Municipality given me the ground I applied for. I have written several letters both to the late Vice President Mr. Raghavendra Rao and the present acting incumbent on the — Brigade, and have not received any reply to my repeated Communications So that in fact I have almost given up the idea of building it disgust. All that I require from the Municipality is a Grant of the piece of land allotted to me and the same to be charged per Square yard, with permission to build, for, without this

information and Authority or would be unnecessary for me to build as the municipality may place all sorts of obstacles in my way after I once start work, and would then well represent the Hackney Horse with the reins in the hands of the municipality.

Believe me to be
Dear Sir
Yours truly
Signed S C Law.

Presidents office mg
dated 31st January 1893.

From,

The President municipal Board
Mysore.

42

To,

The Chief Secretary to the Dewan of Mysore

Sir,

The inhabitants of Ashtagond repeatedly urged the necessity of removing the Holagere from its present locality on the ground of its being situated in close proximity to the houses of other caste people. The matter was placed before a general meeting of the Board on the 27 February 1892, when the question was referred to a sub-Committee for opinion after inspection of the place.

On the 16 April 1892 the sub Committee visited the locality and observed that the houses of the Holagere were mixed up with other caste people, and that under their present situation it was impossible to lay out Conservancy lanes, and suggested the removal of their houses to the plot of ground to the South of their present quarters which is better situated being on a higher elevation than the present site.

The Holayers expressed their willingness to remove their houses to the plot of ground in question, and to build their new houses in a line with a road running between the two rows of houses as per resolution passed by the sub Committee

The land to which it is proposed to

houses measures 2 acres 21 G.
88 Yrds assessed at Rs 2. 13 9. The owner has executed
a muchalika agreeing to give up the land on payment
of a compensation of Rs 171 9-- at 60 years Kandayam
which is the rate paid for adjoining lands. There is
therefore no necessity for having recourse to the
Land Requisition Act either for the removal of
the Holagere from its present locality or for the
requisition of the land for the Holayer's houses.

A Statement shewing the amount of
Compensation payable for the Holayers' houses and
for the land in question is herewith submitted and
I beg that sanction of Government may be accorded
to the same. Ittigegud is at present thickly
populated and the people are badly in want of
building sites. They will doubtless come forward
eagerly to take up sites and the erection of decent
houses thereon will greatly improve that part of
the suburb which is now unsightly.

I may add that it is most probable
that by the sale of the sites and houses the
Municipality will re-imburse itself the whole of
the amount which it now proposes to pay.

I have the honor to be

Sir,

Your most obedient servant

B.A.B.L.
Deputy Commissioner and
President

To,

The Chief Secretary
to the Government
of Mysore

Sir,

With reference to your docket No. 13794 / S.F. 266-92 dated 17th February 1893, regarding the removal of huts in Attigegoe Holageri, City, I have the honor to state that -tion amount of Rs 1,632-7-, therein referred to, be met from the General savings in the Current Years

2. As the Government has raised no objection acquire the huts, and as the official year will be shortly I have, subject to the approval of Government, authorized the Vice President to draw the amount Municipal funds, as advance, and pay Compensation to the owners of huts in settlement of their claims once, to be adjusted hereafter.

3. The sites to be acquired will be taken up by higher classes of Hindus for building purposes, and I have every reason to believe that the sale proceeds of the sites would cover the whole of the amount of Compensation now advanced, if not exceed it. So that beyond showing Expenditure and receipts under the Cor--responding heads of the Budget, no actual loss is appre-hended from the transaction.

I have the honor to be
Sir
Your most obedient servant

Read again letter dated 31st January 1893 No 636 from the President of the Mysore City municipality, submitting a statement, showing the compensation statement amounting to Rs 1632-7-0, payable to the owners of houses and lands to be acquired in Holagere, Ittegegud, Mysore City municipality

Read letter from the same officer dated 6th May 1893 No 875, stating that the amount of compensation proposed to may be met from the general savings in the current year's municipal Budget of the Mysore City Municipality

Order thereon

The disbursement of compensation on account of lands and houses proposed to be acquired in Holagere in Ittegegud at a cost of Rs 1632-7-0 is sanctioned. The cost will be met from the general savings in the current year.

Bangalore

Sir

With reference to Government order No 9745/L.J 266-92 dated 21st December 1893, in re- the acquisition of Bhadrappa's house in the Fort, I have the honor to state that this one of the costly houses which was proposed to be acquired for the improvement of the North West angle of the Fort, as will be seen from the 2d para of the Dewan's Memo, appended to the Governmen order No 3190-3 D.P.W 33 dated 18th July 1896, and that compensation for the house shall have to be p not from the Municipal, but from Provincial F The proposal to acquire this house was not, therefor before the City Municipal Board for a resolution Attempts were made to get the owner to come to but as he was obstinate it was found necessary take steps for its acquisition under the rules.

2. To pay Compensation for this house there is no money available excepting (Rupees 755-13-10 which still remains undrawn from the Treasury from the sum of (Rupees 38,010 of sanctioned for the

improvements as per orders quoted in the margin.

The amount now required for payment on this account is as follows

Compensation for payment for Bhadrappa's house now under reference.	about Rs. 8000/-
To adjust the amount advanced by the Municipality for payment of Compensation to Chowdia for his house under order of the District Court.	Rs. 3102-1-6
To adjust the amount advanced by the Municipality for payment of Compensation to Pleader Thanmmah for his house under order of the District Court	Rs. 1535-7-6
For payment to the Municipality as a refund as directed by Government order No. 2036-7 dated 11th August 1892 (vide G.J. 106-92 para 15.)	Rs. 913-0-0

Total Rupees 13,550-9-0

3. I beg therefore to request that sanction may be kindly obtained for a further sum of Rupees 13,000/ for payment of Compensation and adjustment of the above mentioned advances.

4. The house acquired from Chowdappa which remains still undisposed of, will with Bhadrappa's house now under discussion, will be sold, and the sale proceeds thereof credited to Government in due course.

DEPUTY COMMISSIONER'S OFFICE,
MYSORE DISTRICT,

Dated Mysore 29 January 1894

From

A Rangasamy Iyengar Esquire
Deputy Commissioner,
Mysore District.

To

The Chief Secretary to the Dewan of Mysore,

SIR,

I have the honor at the instance of the city municipality to submit herewith a Compensation Statement showing houses and lands to be acquired in Kolada kecdi for extending the lane branching off from Kalammanagudi Street to Gopanliah's lane in the Lashkar Mohalla, amounting to Rupees 540/-

2. The houses in the locality have no ingress from the north except by the side of the main drain the path by the side of which is so narrow that accidents occasionally occur during nights. It is therefore, proposed to close altogether, and to connect Gopanliah's lane with the present Kolada kecdi on the west, by opening out in the middle.

3 It will be seen from the

& compensation Statement that 5 out of the 7 owners have Consented to part with their property under private arrangement but to obviate any future disputes as to title &c. I beg to enclose a draft declaration for acquiring them all, under the land acquisition act, for publication in three issues of the Mypore Gazette.

4 The outlay can be met from the available balance of Rupees 1319.9 9 under Compensation.

53)

From

A. Rangasami Iyengar Esqr.
BA & BL.
Deputy Commissioner
and President
Mysore City

To,

The Chief Secretary
to the Dewan of Mysore
Bangalore

Sir,

I have the honor to bring to your notice that out of 10 Padakhanas or Toddy shops in the Mysore City only two are Municipal property for which no rent is being recovered although they are subjected to Mohatarfa tax.

2. The one in the Krishnaraj Mohulla where the Toddy is largely sold is ill situated, standing almost across the public road, closely, besides being in a dilapidated condition. I propose to shift it to a convenient place more to the South of the present situation, and convert it into a Tiled building and to fix a monthly rent of 6 Rupees per month, since the present

present Toddy farmer now pays at that rate to some such private buildings. The plan and Estimate to carry out this work amounting to Rupees 615/ are herewith submitted for kind sanction.

3. The other Municipal Padakhana which situates about the Slaughter house in the Mandi Mohalla is nearly in ruins. This will also be converted into a Tiled building and rented out for about 3 Rupees per month as the sale here is not large. The cost of this work has been estimated at Rupees 321.

4. I beg also to state that sheep and goat skins are at present thrown in the open places around the Slaughter house for sale and the consequence is that the locality becomes a nuisance and dirty. To improve matters, the unutilized portion of the Slaughter house building can, with advantage, be made into 1/2 a dozen stalls by putting up partition walls, leaving a door way to each, and rented out to applicants to expose skins there for sale.

5. At present sheep and goats are left in the open to the south of the Slaughter house for sale and the mutton Butchers and others intimated that if the place can be enclosed and conserved a small fee in the shape of rent can be collected per head that may be brought into the enclosure. It is, therefore, proposed to raise mud walls to enclose a sufficient area

and

and a shed erected within for this purpose and to levy at 3 Pies per head brought into the enclosure. These two works are Estimated to cost Rupees 192

6 To carry out all these works during the current official year no money is available under the proper heads of the Public Work Department: Nor can the available balance possibly under other heads be utilized for these works. Sanction may, therefore, be kindly obtained to meet the cost amounting to Rupees 1128/- from the general savings during the current year, so that these works, which are all remunerative, may be put in hand at once, and completed the End of the current official year.

* Padakhanas at Krishnaraj Mohalla 615

To

The Chief Secretary to the Dewan of Mysore.

SIR,

I have the honor to state that the 6 houses mentioned in the accompanying statement and situated in the South-western angle of the Mysore Fort are needed for improving the sanitation of the Palace surroundings. The owners were offered reasonable compensation at rates at which their neighbouring houses were purchased by private negotiation. The owners want exhorbitantly [illegible]

and there is no likelihood of their agreeing to reasonable terms; and as the houses lie scattered in this locality, the contemplated improvement cannot be accomplished till they are secured.

2. I request therefore that you will be so good as to obtain sanction of Government for the acquisition of these houses under the provisions of the Land Acquisition Act and to have the enclosed declaration published in three successive issues of the Mysore Gazette.

No. 92

Stating that the holders of certain Hulkhairahally holdings are willing to move their houses to another site

As the matter affects the health of the Village it is one in which the Govt. should take some interest. I ascertained the present stage of the question

Submitted for orders in Govt. letter 9397 of 16/12/13, which was not communicated to the D.C. owing to the Mysore Dasara of 1813 M.

The D.C's Camp has apparently mistaken the whole position. The few Holagar houses referred to are those in a very low situation and ~~the owners thereof have been Compelled clamouring for new Sites~~ during the rains water backs up several feet & Sometimes floods the floor. This water cannot be drained into the bathing tanks for obvious reasons. Hence the project in the late Special Supt division to place the houses on new higher sites on the South on land to be acquired & allotted for the purpose and to dispose of the drainage locally.

From the E.E. who succeeded to the Charge of S/h Irrig. Dn and seeing sometimes done to help them poor villagers whose statement that they want a wish to remove their sites the Govt are unable to believe under the circumstances stated above.

To

The Secretary to the Government of Mysore,
Revenue and General Departments.

SIR,

Mr. Chengoh Chetty, the 2nd Assistant Commissioner of this district informed me that the Dewan had been pleased to direct the removal of a few of the houses belonging to holiyars in the Kukkarahally village in the Mysore Taluk from their present situation to a higher site in the village. I went to the spot with the said Assistant Commissioner and the Amildar of the Taluk. The holiyars concerned stated that they did not wish to leave their present houses but that if they were told they would do so, provided they were supplied with sites and compensation at Rs 5 per annum to cover the cost of rebuilding their houses. There is no vacant ground available to the north of the village but the holiyars not to go there as they fear that spot is not safe. There is an extensive tope [illegible]

situated to the south of the village, but the owners thereof refuse to part with it for any compensation and the holiyars do not wish to extend their village in that direction. It is not possible to extend the village on the East and the West, it being bounded on those sides by the Doddakere feeder and the Kukkarahally road respectively. There are also a few vacant sites in the village, but the holiyars do not care to go there. In fact they seem to be unwilling to leave their present houses. —

Read

Correspondence ending with the Mysore Deputy Comr's No 331 of 14 August 1896 resubmitting with certain information the statement of Compensation &c paid in connection with the improvement of the Town & Fort of Mysore

2 Statement obtained from the Comptroller's office showing the advances (to be yet adjusted) made up to 30th June 1895 to the Deputy Comr, Mysore & Asstd Vice president, Mysore Municipality, and other Officers on accounts of expenses connected with the improvement of the Mysore Town & Fort.

Judl
3050-51/Fl.232 } 19.9.96 Order thereon:-

On a comparison of the statement received from the Deputy Comr with that obtained from the Comptroller's office it is observed that not only the advances requiring adjustment but-

also the amounts ~~also~~ already adjusted have been included in the former. Certain amounts also appear to have been shown in excess of the actual sums drawn as advance. These amounts being deducted, the actual amount of advances requiring adjustment as included in the Deputy Comr's statement comes to Rs. 92950-11-3 which is less than the amount exhibited in the Comptroller's return by Rs. 22576-4-6 This difference is due to the non-inclusion in the Deputy Comr's statement of the advances drawn since 1890 the details of which are given in the list A. attached. As the vouchers connected with the several items of expenditure shown in the Deputy Comr's statement have not been completely received, it is not feasible to sanction the adjustment of the whole amount and the Govt are, therefore, pleased to sanction at present the adjustment of the advances drawn on account of the marginally noted 2 items as per details given in the accompanying list B. by debit to the General Revenues under the head "Municipal Improvements in Mysore"

1 Blocks of houses purchased in Gollagere 28272.

2 Blocks of houses &c purch behind Jagan Mohan palace Hospital &c ——— 2650

Total 54780

Separate orders will issue as reg

the other items of ~~expenditure~~ advance included in the Deputy Comrs statement under reference as well as those not included therein.

/Sd/ C. Bowen Colonel
Chief Engineer of Mysore

Summary in English of Extract from "G. Register
embodying report submitted to the Deputy
Commissioner, Mysore District by the Assistant
Commissioner Mysore.

Mysore Taluk Amildar states that he has
already brought to notice in his No. 1041 dated
26.6.96, that the three houses belonging to Mane
Kunada Chicka and Era, Parcah inhabitants
of Kukarhalli village, Lingambudi Hobli,
Mysore Taluk, having been built on low ground
are subject to inundation whenever it rains
heavily. Backyards of some other houses are
available where these people might rebuild their
huts, but the owners of those yards are not
willing to give them up, unless they are given
vacant ground to the north of the village to
form yards for storing straw &c. There is also
another site available for rebuilding these huts
It is situated to the south of the village and
forms at present a dry field belonging to one
Sidda. 22 guntas of it is wanted, but the
owner is not disposed to part with it unless
an equivalent area of land is given from

SECRETARY'S OFFICE
6718
1890

in exchange It will have therefore to be
acquired under Land Acquisition Act. Panchayatdars
value this land at Rs 65 per acre. The owners
of the huts under reference demand Rs 135
as compensation
